

The 5th International Conference on Plasma Medicine ICPM5 at Nara, Japan

Topics covered include

- plasma physics and chemistry relevant for medical/biological applications
- medical treatment with discharge plasmas
- biological reactions to gas plasmas or plasma-treated media/surfaces
- plasma-based surface modification for biological applications
- plasma-based sterilization/decontamination
- plasma sources for medicine
- plasma technologies for medicine, biology, and agriculture

Dates: 18(Sun) – 23(Fri) May, 2014

Venue: Nara Prefecture New Public Hall, Nara, Japan

Chair of LOC: Satoshi Hamaguchi, Professor, Osaka University

Organized by: International Society of Plasma Medicine
